

WEBINAR INVITATION - Performing CSA and preparation of the CSR

By Dr. Peter Douben, REACHWise in collaboration with Reachway

Dear Sir/Madam,

The preparation of registration dossiers for the first group of phase in substances is underway. One major challenge is performing the Chemical safety Assessment and preparing the Chemical Safety Report before the first registration deadlines. For all classified substances and qualifying PBT/vPvB, a new instrument for communication through additional exposure scenarios (ES) need to be prepared.

REACHWise and Reachway host a webinar on **10th September 2009 between 14:00 and 15.30 (CET)** with the view of addressing the main challenges and practical solutions towards the CSA/CSR/ES preparation. What steps needs to be taken? What tools should be used?

Time	10th of September 2009 from 14.00 until 15.30 CET
Speaker	Dr. Peter Douben, REACHWise UK
Content	Origin and purpose of CSA/CSR Fitting in exposure scenarios Who should do the CSA Communication and data exchange in the supply chain Format to follow for the CSR & ES The tools of the trade to help with producing the CSR & ES Questions and answers
Benefits of attending	Expert advice on translation of the guidance documents into practice Experienced knowledge how best to do it Possibility to address issues that are challenging for you
